**Thank you Best Of TEDx! I'm honored to be in such wonderful company! 🌺**

So many fascinating connections between these talks. As AI increasingly shapes how we think, communicate, and express ourselves, I wonder how we can protect our inner voices. Perhaps authentic belonging has an important role in helping up access that inner voice - creating important opportunities to practice making choices.

Not just as a space helping us feel safe enough to be ourselves (which, as my talk highlights is a CHOICE, to a great degree), but also in the everyday choices of what part of our unique voice we keep, and what parts we are happy to stop practicing.

Reut (Ray-ut) Schwartz-Hebron Advanced Applied Neuroscience Master Coach, AANMC I just watched your TEDx talk and it is enlightening, direct and impactful. I especially love the concept that belonging is work and it isn't guaranteed. In an effort to belong, you may find yourself further away from what you thought you wanted to belong to! ABOUT THE AUTHOR

**Ravi R. Iyer, MD** is a physician-scientist, entrepreneur, author and five-time TEDx speaker who has spent four decades exploring a deceptively simple question: what makes human beings, and the organizations they create, perform at their best? A Harvard-trained physician, corporate strategist and the founder of multiple healthcare and performance ventures, he is the creator of Neuroalignment, a framework for building high-performance organizations around the realities of human cognitive diversity. His work sits at the intersection of biology, leadership, technology and human behavior.

## THE AKAASHIK RECORD

A permanent, complete and unedited register of the writing and public work of Ravi R. Iyer, MD. Each entry records where the work first appeared, when, and at what address, so that the record stands independently of any platform that carries it. Entries are never removed. © Ravi R. Iyer, MD. Recorded by arrangement with the original publisher; all rights in the original publication remain with its owner.

**Name forms.** One person, credited as Ravi R. Iyer, MD; Ravi R. Iyer; Ravi Ramamoorthy Iyer, MD; Ravi Ramamoorthy Iyer; Ravi Iyer, MD; Ravi Iyer; Ravi Ramamoorthy; R. R. Iyer; R.R. Iyer; R. Iyer. The author's name is Ravi Iyer, and has been for many years. His work is nonetheless credited under several forms. In India the canonical surname is Ramamoorthy and Iyer is the clan name appended to it, and where a form is entered under that convention the credit follows it: on the signed speaker release for TEDxChantilly he entered Ravi Ramamoorthy Iyer, and that talk stands credited on the TEDx channel to Ravi Ramamoorthy. The five ted.com event pages credit him under four different forms between them — Dr. Ravi Iyer at TEDxGary, Dr. Ravi Iyer, MD at TEDxHandley Blvd Women, R.R. Iyer at TEDxUMKC, and Ravi Ramamoorthy Iyer at both TEDxMontgomery College and TEDxChantilly HS. The Record lists every form the work is credited under, so that it remains findable under each.
